

RESEARCH MENTORSHIP GROUP AT CARLE FOUNDATION HOSPITAL

Is there a research topic you want to explore
but aren't sure how to go about starting it?

The Research Mentorship Group is here to help you!

They can:

- Guide your imagination
- Discuss the design
- Assign an expert to further develop the project
- Transform ideas into research projects

The mission of the Research Mentorship Group is to help create and maintain a dialogue of research amongst all healthcare professionals at Carle and support research productivity by promoting the idea that high quality clinical research can be done appropriately by any interested individual or group.

The Research Mentorship Group is made up of experts in all areas of research, including:

- Qualitative Research
- Survey Research
- Retrospective Research
- Basics of Research
- Case Series
- Population Based Research
- Quantitative Research
- Prospective Research
- Cohort Research

Research Mentorship Group meets on the first Thursday of each month and on an as needed basis. Meetings are held at 12 p.m. in the 3rd Floor Conference Room of the Biomedical Research Center (3rd floor of MBCI/Cancer Center).

ANY QUESTIONS, contact Charletta Little, Research Coordinator, at (217) 326-0068.

Co-Chairs

Bharat Gopal, MD, FAAFP
